BSc. in Engineering

Shahjalal University of Science And Technology, *Sylhet*

01/2022 - Present
Computer Science and Engineering

PERSONAL PROJECTS

EdTech Platform (05/2024 - 06/2024)

Live Site : https://elevateex-ac4de.web.app/

Client Side github repo: https://github.com/gazimaksudur2/elevateex-client

Server Side github repo: https://github.com/gazimaksudur2/elevateex-server

- There are 3 types of user facility. Like, admin, instructor, student or general user. For each type there will be a functional dashboard.
- Students will be able to access the courses that are approved by the admin and able to enroll in it.In Student Dashboard, he will have access to his profile and his enrolled courses.

- General users can create a request to the admin for being an instructor on this platform.
- Any general user or instructor will have the opportunity to be an admin on that platform. For that, He will have to apply to be an admin. There will be an available route on the right sidebar which will open when you click over your profile image on the home page.
- Their admin will have multiple types of features like All users route, All classes route, Admin profile route, Instructor/Teacher requests route.

Hotel Booking Management System (04/2024 - 05/2024)

Live Site : https://trip-flip.web.app

Client Side github repo: https://github.com/gazimaksudur2/trip-flip-client

Server Side github repo: https://github.com/gazimaksudur2/trip-flip-server

- One can create an account with his credentials or using an existing google or github account.
- After signing in he will be able to book a room at the hotel of his choice and have the ability to edit the booking info.
- After checking Out of the hotel he will be able to review his experience of the service in a post which will show in the home page alongside the rooms page.

Art and Crafts Gallery (03/2024 - 04/2024)

Live Site : https://artisan-haven.web.app

Client Side github repo: https://github.com/gazimaksudur2/artisan-client

Server Side github repo: https://github.com/gazimaksudur2/artisan-server

- This is a Textile art and craft gallery so here people can view various types of arts and crafts.
- After registering one will have access to add new crafts to our gallery. And he will be able to edit, update or delete his created crafts from his account on our platform.
- Another mind blowing feature is category based crafts showing where he will experience with an awesome work.
